Crystal Vision

Crystal Vision

Is available for concerts, festivals,
fairs, and special events and
celebrations.

A typical concert engagement consists
of two sets of approximately one hour
each. An intermission provides the
house the opportunity to sell water,
concessions, etc.

While venues with “house” sound
systems are preferred,

Crystal Vision

can provide a suitable sound system
for small to medium sized halls.
Fees are negotiable based on many
factors, such as travel distance,
availability of house sound, size of the
venue, and type of event.
We look forward to talking with you
and presenting the music of
Fleetwood Mac for your audience!
